

Datasheet

Pool and Pond

Pool & Pond is a cement based, 2 pack waterproofing solution. The product is APEO, Ammonia and Formaldehyde free. No membrane required.

Heavy duty cement based waterproofing for fixed areas

PRODUCT DESCRIPTION

Pool & Pond is a cement based, two pack waterproofing solution. It is part of a new generation of coatings that is APEO, Ammonia and Formaldehyde free. Pool & Pond have superior flexural, and impact strength, as well as excellent abrasion resistance. New technology allows Pool & Pond to be air cured. Thus eliminating the need for the laborious moist curing process traditional cement based solution had.

SURFACE PREPARATIONS

- ALL SURFACES: All surfaces must be thoroughly clean.
- BRICK, PLASTER, CONCRETE AND CEILINGS: Brush well to remove all dust

ADVANTAGES:

- Can be recoated with Paint
- Environmentally Friendly
- UV Stable
- Can be applied onto damp surfaces
- High Strength
- High Adhesion
- Very Durable
- Air Cured

USES:

- Shower floors
- Fish ponds
- Cement Pools
- Reservoir
- Rising Damp

APPLICATION

- STIR the contents thoroughly before use.
- This product should be applied WITHOUT THINNING. Apply with using Paintbrush and allow at least 30 minutes drying time between coats. Please note drying times can be greatly affected by ambient temperature and surface.
- CLEAN painting equipment with water immediately after use.

STORAGE

Store in cool and dry conditions out of direct sun light

PRECAUTIONS

- Do not apply if rain is imminent.
- Apply at an ambient temperature of 10 to 35°C.
- Keep out of reach of children.
- Avoid eye contact. If contact did occur, clean with running fresh water and consult a physician if necessary.
- Air curing conditions should be applied rather than moist cure conditions for optimum properties

SPREAD RATE

Coverage is ± 2 m²/litre (depending on surface and application)

AVAILABLE COLOURS

Natural cement gray colour. Can be further tinted with oxides.

PACKAGE SIZE

Available in 2, 10 Litres
